FIRE DAMAGES TEXAS HOTEL AT CLOUDCROFT; \$600 DAMAGE

Cloudcroft, N. M., Nov. 1.—The Texas hotel was damaged by fire, which was caused by a defective flue. The fire department was unable to stop the blaze until it had done \$600 damage to the hotel.

The water pressure was strong, but, being no regular fire department organization, it was some time before the volunteer work was effective. A drilled fire department is being considered and will probably be organized at once to protect the town and reservation from fires.

VILLAGE FORCE IS MAKING ATTACK

Without Food, They Are Forced to Take Action or Face Starvation.

(Continued from Page 1.) Cavalry passed lines of American trenches a short distance from the border. The trenches were filled. Unless States troops, the machine guns were in hidden positions.

Villa's troops had a point on the west side of Agua Prieta at noon, thus completely encircling the town, and a demand was reported to have been made on Gen. Calles for a surrender by 2 p. m.

Calles' troops remained inactive in the trenches, although the Villa troops were in plain view of Agua Prieta.

Davis Warns Calles and Villa. Gen. Davis has sent a note to Calles and Villa that the United States considers the principle of the Nure agreement still in effect. It is a note that has been sent to Calles and Villa. Gen. Davis will use necessary force. Gen. Funston arrives tomorrow morning.

The Villa army continued to move steadily toward the trenches of Agua Prieta this morning. By 10 a. m., a thin skirmish line composed of Yaqui Indians had moved up to within a mile and a half of the Mexican town.

Villa Laid Close to Americans. The right flank of the Villa line now almost touches the American boundary at a point near the Shafter ranch house. A mile to the left a strong squad of cavalry also moved up with the skirmish line.

It is thought quite possible that if Villa can get his artillery into position he will attack the town. He is known to be short of water.

Wounded Brought Over. A large number of wounded were brought across the line last night, many suffering from typhoid, others from wounds, so that the Agua Prieta hospital might be reserved for treatment of those shot in the battle, if it occurs.

Four Babies Born on Troop Train. Four babies were born on two of the troop trains which early today brought reinforcements to the Agua Prieta garrison via Eagle Pass and Laredo. Two of the babies were twins. The mothers, on alighting from the trains here, accompanied their husbands into the trenches.

CARRANZA LOSES INJUNCTION SUIT. The temporary injunction granted Andres Garcia, Carranza consul at El Paso, against the El Paso Southern and the El Paso, Rio Grande & Santa Fe, to prevent the movement of cars into Mexico, was dissolved by Judge P. R. Price in the first district court Monday morning. Judge Price did not pass upon the question of the right of Cedar Hill Coal and Coke company to intervene in the suit.

The effect of the dissolving of the injunction is that so far as the state of Texas is concerned, the roads may proceed with shipments into the territory controlled by Villa.

It is understood that the case will be carried to the United States supreme court.

ARIZONA 80 PER CENT LAW KILLED. (Continued from Page 1.) That the right to work for a living in the common occupation of the community is of the very essence of the personal freedom and opportunity that it was the purpose of the amendment to secure. If this could be refused solely upon the ground of race nationality the prohibition or the denial to any person of the equal protection of the laws would be a barren form of words.

Would Enact Federal Power. "It is no answer to say, as it is argued, that the act proceeds upon the assumption that the employment of aliens unless restrained was a peril to the public welfare. The discrimination against aliens in the wide range of employment to which the act relates is made an end in itself. It must also be said that reasonable classification implies action consistent with the legitimate interests of the state and it will not be disputed that these cannot be so broadly conceived as to bring them in hostility to exclusive federal power.

The authority to control immigration—to admit or exclude aliens—is vested solely in the federal government. The assertion on an authority to deny to aliens the opportunity of earning a livelihood when lawfully admitted to the state would be tantamount to the assertion of the right to deny them entrance and abode, for ordinary cases they cannot live where they cannot work.

CANTATA REHEARSAL TO BE HELD TONIGHT. A complete rehearsal of "The Rosemaiden," a chorus of 50 voices is being held at the First Presbyterian church Thursday evening. The cantata, which is being rehearsed, will be held at that church this evening, under the direction of James G. McNary with Mrs. McNary at the organ. "The Rosemaiden" is one of the premier works of Frederick Cowen, the words being adapted from a poem of like name by R. E. Franklin.

In presenting Cowen's cantata an El Paso chorus gives to a local public a complete work of a composer, but slightly known in America, though an English celebrity for many years. Cowen was born on the Isle of Jamaica, received his musical education in Cambridge, and before turning his genius to composition, led many of the leading orchestras of the British Isles.

He was a versatile man, writing as many as six symphonies, more than 250 songs and a complete portfolio of works for strings, as well as a number of chorals, the chief of which, in the cantata form, is the "Rosemaiden."

RIPLEY GIVES HIS WIFE CREDIT FOR HIS SUCCESS IN LIFE. Chicago, Ill., Nov. 1.—E. P. Ripley, Chicago, Ill., Nov. 1.—E. P. Ripley, who was 70 years old Saturday, said at a dinner given by the Chicago, Milwaukee & Santa Fe Railway company, who was given him that night that he attributed whatever success he had made to the helpful influence of his wife and to the cordial support of the men and women who compose the Santa Fe family.
